- Persuasion
- Defence

Power of Thinking

"... I strongly ask you to do k-fold cross validation ... Because RF is a strong data-driven approach, k-fold cross validation (at least) is need for avoiding overfitting of the RF model. Correlation coefficient (most important for this dataset) is not sufficiently secured with only one split process."

- Provocative case studies
- Pedagogical logic

NOT

- recipe book

YES

- chef training

NOT

- coding centric

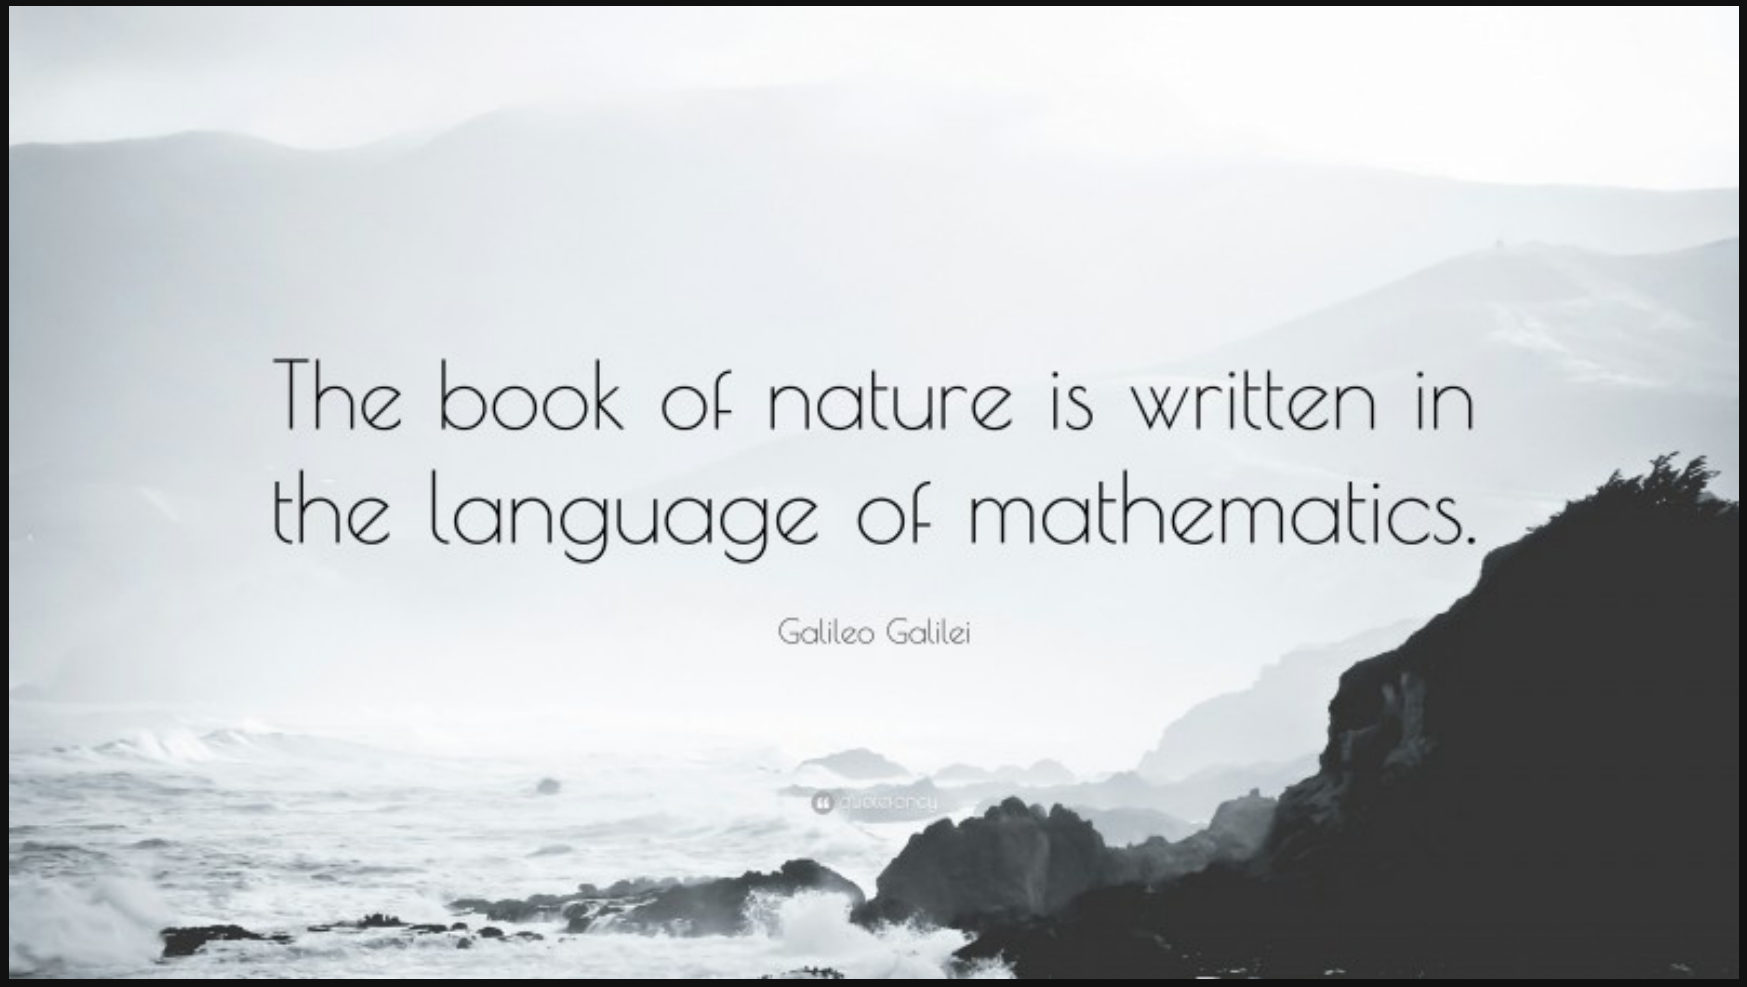
YES

- innovative thinking
- problem solving ability

Example

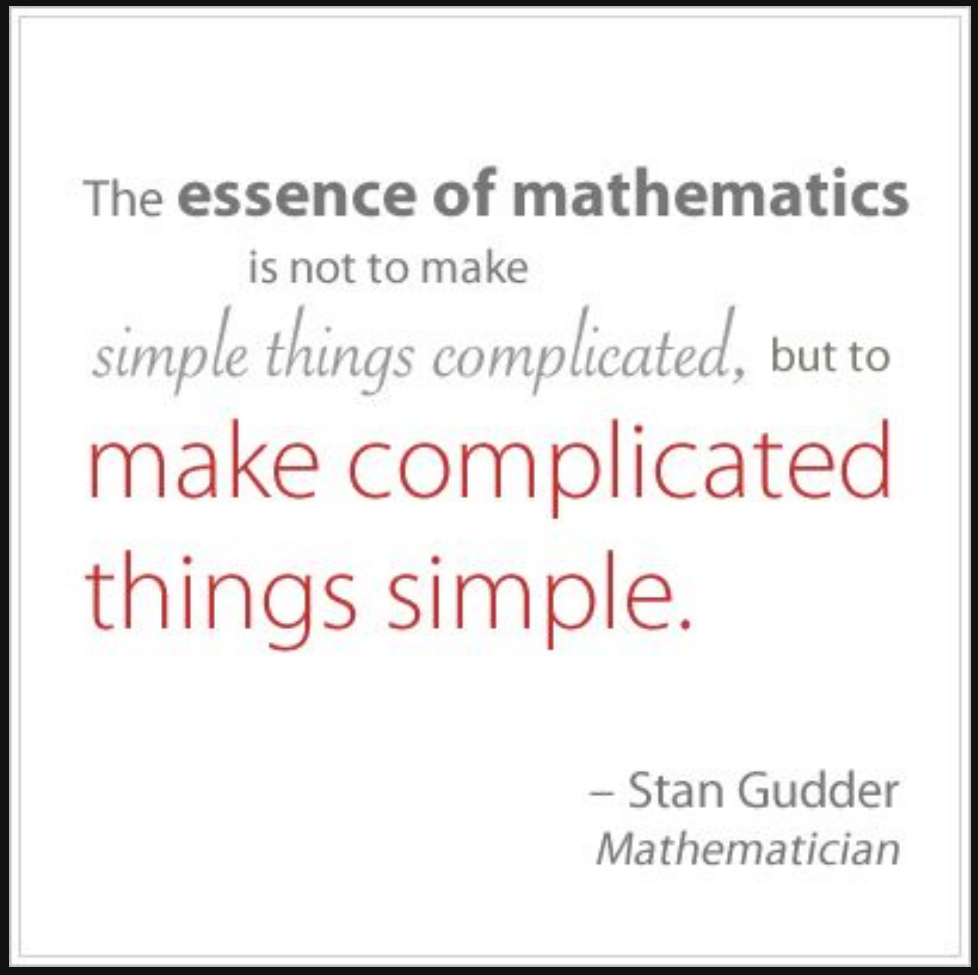
In late May 1968, a nuclear submarine SSN-589 was lost at sea as it was returning to its naval base at Norfolk, Virginia. The search started in an vast area of the Atlantic Ocean. The task was challenging for the lack of knowledge about the cause and uncertainty about the location of the sinking.

Language



The book of nature is written in the language of mathematics.
Galileo Galilei

Language



The essence of mathematics
is not to make
simple things complicated, but to
make complicated
things simple.
– Stan Gudder
Mathematician

NOT

- knowledge accumulation
- outcome testing

YES

- capacity building
- directional thinking

YES

May it be a light to you in dark places, when all other lights go out.

— J. R. R. Tolkien —
